

**BUSINESS NOTICES.**

EDITORIAL NOTICES are so common that it is almost impossible for an editor to express his honest opinion of the merits of any article without being accused of

This fact, however, should not deter us from saying what we think of a new addition to the Materia Medica to which our attention has been recently directed. We refer to DR. J. WALKER'S CALIFORNIA VINERAR BITTERS, a remedy which is making its way into more families just now than all the other advertised medicines put together. There seems to be no question about the potency of its tonic and alterative properties, while it possesses the great negative recommendation of containing neither alcohol nor mineral poison. That it is a specific for Indigestion, Bilioousness, Constipation and many complaints of nervous origin, we have reason to know; and we are assured on

good authority that as a general invigorant, regulating and purifying medicine, it has no equal. It is stated that its ingredients, (obtained from the wilds of California,) are new to the medical world; and its extraordinary effects certainly warrant the conclusion that it is a compound of agents hitherto unknown. If popularity is any criterion, there can be no doubt of the efficiency of the VINEGAR BITTERS, for the sale of the article is immense and continually increasing. \_\_\_\_\_ apr-4w

A FEW years ago, Mr. Fellows ventured to recommend a new combination of Hyphosphites (FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES) to the medical profession and

the public based upon the effect he himself experienced from its use; since then it has been employed with marked success in the treatment of various debilitating diseases, and the sale which was at first numbered by single bottles, has now reached large proportions, so that it is impossible to estimate the good results which have followed. Many cases of confirmed consumption are known to have been cured, in others the physical signs have disappeared, while great improvement has been marked in all. The inventor has yet to be informed of a single instance where Bronchitis, either acute or chronic, has not been successfully treated by it; while in other Lung difficulties, diseases of Heart, Nerves, Stomach, and the

It is pleasing to note a chemical preparation emanating from a provincial town, prescribed by the leading medical men of the great cities, as is the case with this preparation.

**THE TENACITY OF TRUTH.**—When a nation as clear-headed as the Americans once becomes convinced, from long experience and observation, that an article possesses superior excellence as a medicine, not all the preposterous claims of all the nations that are stronger powers in

the universe can shake their belief in its efficiency. Truth is a very tenacious thing, as these worthies are beginning to discover. PLANTATION BITTERS has too firm a hold upon the popular esteem to be in the slightest degree affected by the cold water diatribes which the advertisers of fermented slops, "without a particle of alcohol," are so fond of launching against all alcoholic preparations. The public knows very well that this peerless reinvigorant and tonic does contain spirits, but it also knows that they are of the purest and most wholesome description viz: fine old St. Croix, the most active and beneficial diffuser of its remedial and invigorating properties throughout the system which

COLEGATE & Co.'s *Cashmere Bouquet Soap* has a novel but very delightful perfume, and is in every respect superior for toilet use.  
Sold by dealers in perfumery and Toilet articles. mri-edc3m

I CAN testify to the high therapeutical value of Fellow's Compound Syrup of Hypophosphites, and consider it deserving of attention by the profession generally.  
AARON ALWARD, M. D.,  
Mayor of the City of St. John.

**General Debility**

**Debility** is a term used to denote deficiency of blood. The nutritive constituents of the blood are in less than their regular proportion, while the watery part is in excess. It is a general condition, and is the result of accident to a variety of diseases. The lower limbs are the first to be swollen. The patient is feeble, and cannot do much work, except at intervals. The appetite is not almost always weak. Palpitation of the heart is a very common symptom. Violent emotion often produces a severe attack. The patient is very nervous. The vital functions are languidly performed. The muscular strength is diminished; fatigue follows more readily than usual. The complexion is pale. The breathing, though quiet, is somewhat hurried. The pulse is small, and is interrupted under exertion, as in running, ascending heights, &c. The nervous system is often greatly deranged. Articular rheumatism is not infrequently associated with this condition. The secretions are very common. Violent and obstinate neuralgic pains in the head, side, breast, or other parts of the body are frequent. The bowels are generally constipated. The secretions are sometimes diminished. In female

The meneses are almost always either suspended or very partially suspended. The general debility, nervousness, with unhealthy evacuations from the bowels and dyspeptic state of the stomach, are extremely common symptoms.

## Found at Last.

GLOBE VILLAGE, SOUTHERIDGE, MASS.,  
February 23d, 1871.

H. M. STEVENS, Esq., BOSTON:

For the past five years I have been afflicted with dyspepsia caused from a morbid state of the liver, loss of appetite, raising of food and wind from the stomach, a sense of distention in the stomach, costiveness, palpitation of the heart, general debility and languor. For a year past I have taken your VERMINE or Blood Purifier. I am now well and able to attend my business and of the best recommended and I can heartily recommend it to all afflicted with similar

any person desiring further information can call on  
GEO. HANSON, 400 Broadway, South Boston.

**What is Needed.**

BOSTON, Feb. 13, 1871.

HENRY R. STEVENS, Esq.,

Dear Sir,—About one year since I found myself in  
a feeble condition from General Debility. YEOGIM  
was strongly recommended to me by a friend who  
had been much benefited by its use. I procured this  
article and after using several bottles was restored  
to health, and discontinued its use. I feel quite cer-  
sident that there is no medicine superior to it for  
those complaints for which it is especially prepared.

and would cheerfully recommend it to those who have  
that they need something to restore them to perfect  
health. Respectfully yours,  
U. L. PETTINGILL,  
Firm of S. M. Pettengill & Co.,  
No. 10 State Street, Boston.

## Gives Health, Strength and Appetite.

My daughter has received great benefit from  
use of the VEGETINE. Her declining health  
suffered great anxiety to rest and her friends. A few  
bottles of the VEGETINE restored her health, strength  
and appetite. N. H. TILDEN,  
Insurance and Real Estate Agent,  
No. 42 Sears Building, Boston, Mass.

## Marvelous Effect.

H. R. STEVENS:

Dear Sir—I have used VEGETINE, and feel it a duty to acknowledge the great benefit it has done me. In the spring of the year 1862, I was sick from general debility caused by my not wanting sleep, and no proper rest. I was very weak, and much emaciated. I tried many remedies without receiving any benefit from any of them, until I was persuaded to try VEGETINE. Before I had taken this one week, my improved condition gave me renewed hope and courage. I could take it every day gaining more strength until I was completely restored to health. The effect of this Remedy, in case of general debility is indeed marvelous.

ELIZABETH A. HALEY  
21 Webster St., Charlestown, Mass.

**Swollen Limbs.**

LEBANON N. H., Jan. 29, 1870

MR. STEVENS:

Dear Sir—I write this note to inform you of the effect of your "Blood Purifier" upon my system. When I commenced taking it, a year ago, I was very much debilitated. My limbs were swollen so that it was impossible for me to get into or out of a carriage, and very painful to go up or down stairs. I died. I could scarcely stand on my feet. My appetite was gone, my strength failing rapidly. After using your medicine a few weeks, I began to improve. My appetite improved and my strength returned. I feel now as well as I ever did. I am very much obliged to you and I feel I owe it to YEOGIE.

Yours gratefully,

MRS. C. A. H. TILDEN.
